

CONSENT FORM

Form to collect consent from participants engaged in research activities about the use of their personal data.

Date: 07/01/2022

Version: V1

How to use this INTERLINKER

This form can be used to collect consent from participants engaged in research activities about the storage and use of the data they contribute. It should be distributed together with a copy of the INTERLINK information sheet.

Some parts of the consent form can be tailored according to the specific event / activity / experiment the participants will be involved in, for example to list exactly the type of data that will be collected. If changes are introduced, a careful check is required to guarantee that the version of the Consent Form and of the Information Sheets that are distributed to participants are consistent.

The consent form should be signed and dated in the presence of the participant.

A copy signed by all parties should be given to the participant and one kept by the researcher and filed in a secure location.

Are you looking for a consent form for your project?

This consent form has been specifically prepared for the INTERLINK project. A generic template for consent form is available for other co-production projects to prepare their own consent form. See the INTERLINKER "Consent form template".
